Education

Chennai Mathematical Institute — Chennai, India
Master of Science in Theoretical Computer Science — *Aug. 2026 – May 2028 (expected)*

Kirori Mal College, University of Delhi — Delhi, India
Bachelor of Science (Honours with Research) in Mathematics, Minor in Economics — *Nov. 2022 – May 2026*

Experience

Full-Stack Developer — Mar. 2023 – Present
Freelance & Fractal — *Remote*

- Worked as a freelance full-stack web developer, securing projects independently on Upwork and through Fractal, a freelance agency
- Developed a range of internal business applications, e-commerce platforms, and designed digital media for brand communication, using Flutter, NextJS, Python (Tkinter, Selenium, Pandas), and others. Worked on unit and BDD testing for React and Angular applications.
- **Order Procurement & Management Solution** | *ExpressJS, NextJS, PostgreSQL, TypeScript, TailwindCSS*
  - Built a full-stack order placement portal for the company with session-based auth. and RESTful APIs.
  - Designed dual interfaces: customer-facing product ordering and an office-side order management system.
  - Designed the customer interface to display real-time product listings with current pricing and enable seamless order placement to logged-in users.
  - Built the office interface as a comprehensive order management system, featuring employee assignment, activity logging, internal notes, processing WhatsApp messages into orders, and support for recurring orders.
  - Architected the system to ensure scalability, maintainability, and efficient data handling, leveraging PostgreSQL as the relational database.

Software Developer — Oct. 2023 – Apr. 2025
Tagglabs Experimental Pvt. Ltd. (Freelance) — *Gurugram, Haryana (Remote)*

- **Cross-platform AR App** | *Flutter, OpenCV, C, Django* **(Live link)**
  - Led the development of the alpha release of a cross-platform augmented reality, location-aware mobile app made with Flutter for Android and iOS.
  - Developed an internal package for Flutter, integrating the SIFT algorithm for feature matching via native C APIs and the OpenCV library into the Flutter ecosystem.
- **Kia National Conference App** | *Flutter*
  - Built an app for the Kia National Dealer Conference in Bangkok, Thailand, handles registration, hosts centralized attendee details, guides navigation around host hotels/cities, and enables live audience engagement.

Web Developer Intern — Nov. 2022
Dualite — *Remote*

Technical Skills

Languages: Python, JavaScript/TypeScript, C++, R, Mathematica, SQL, Dart
Frameworks/Libraries: Flutter, NextJS, React, NestJS, ExpressJS, React Native, TailwindCSS, Pandas, NumPy, Matplotlib, OpenCV, WordPress
Developer Tools: Vim, LaTeX, Bash, Linux, Git, AWS

Achievements

Erasmus Mundus Joint Master MATHS-DISC Fellowship — Europe
Issued by European Union and affiliated universities — *Mar. 2026*

Publications

Computable Analysis: Mathematical Foundations and Computability of Real Functions
Poincare Journal of Mathematical Physics & Applications, Vol. 1, No. 1 (2026), 1–20 (with Sujit Kumar)
